IJARIE Authors Guidelines

Welcome to the International Journal of Advancing Research, Innovation, and Entrepreneurship (IJARIE). Our journal is dedicated to publishing high-quality research articles, reviews, and case studies that contribute to the advancement of knowledge and practice in the fields of research, innovation, and entrepreneurship. To ensure the smooth processing of your submission, please follow these detailed guidelines.

1. Manuscript Categories

- **Research Articles**: Comprehensive studies presenting original research.
- **Review Articles**: Summarized evaluations of existing research on a particular topic.
- **Case Studies**: Detailed reports on particular instances of research, innovation, or entrepreneurship practice.

2. Manuscript Preparation

2.1 General Formatting

- **File Format**: Manuscripts should be submitted in Microsoft Word format (.doc or .docx).
- **Language**: All submissions must be in English.
- **Paper size**: A4, 210 x 297 mm
- **Font**: Use Times New Roman, 12-point size.
- **Margins**: Top 3.8 cm, Bottom 2.54 cm, Left 2 cm, and Right 1.27 cm.
- **Line Spacing**: Single-spaced throughout, including references and captions.
- **Page Numbers**: Number all pages consecutively.

2.2 Structure of Manuscripts

Title Page:

- Title of the manuscript.
- Full names, affiliations, and email addresses of all authors.
- Corresponding author's contact details.

Abstract:

- Maximum of 250 words.
- Summarize the main objectives, methods, results, and conclusions.
- Include 4-6 keywords.

Main Text:

- **Introduction**: Clearly state the purpose, objectives, and significance of the study.
- **Literature Review** (if applicable): Provide a summary of relevant existing research.
- **Methodology**: Detailed description of the methods and procedures used.
- **Results**: Present the findings of the study.
- **Discussion**: Interpret the results, discussing their implications and limitations.
- **Conclusion**: Summarize the main findings and suggest future research directions.

Acknowledgments:

- Mention any funding sources, institutional support, or other acknowledgments.

References:

- Use APA (7th edition) referencing style.
- Include DOIs or URLs for all references where available.

Tables and Figures:

- Include tables and figures within the text at appropriate places.
- Number tables and figures consecutively.
- Provide descriptive captions for all tables and figures.

3. Submission Process

- **Online Submission**: Submit manuscripts through our online submission system by clicking **here to register.**
- **Cover Letter**: Include a cover letter stating the significance of the manuscript and confirming that it has not been published or submitted elsewhere.

4. Peer Review Process

- **Initial Screening**: Manuscripts are initially screened by the editorial board for relevance and adherence to guidelines.

- **Double-Blind Review**: Manuscripts passing the initial screening undergo a double-blind peer review process.
- **Review Feedback**: Authors will receive reviewers' comments and may be asked to make revisions.
- **Decision**: The final decision (acceptance, revision, or rejection) will be communicated to the corresponding author.

5. Ethical Considerations

- **Authorship**: All listed authors must have made significant contributions to the research.
- **Plagiarism**: Manuscripts must be original and free of plagiarism. Use plagiarism detection software before submission.
- **Conflicts of Interest**: Authors must disclose any potential conflicts of interest.
- **Data Availability**: Authors should be prepared to provide access to the data supporting their findings.

6. Post-Acceptance

- **Proofreading**: Authors will receive proofs for final review before publication.
- **Publication Fees**: Details of any applicable publication fees will be provided upon acceptance.
- **Copyright**: Authors will retain copyright but must grant IJARIE a license to publish the manuscript.

We look forward to your submissions and contributions to advancing research, innovation, and entrepreneurship.

Thank you for considering the International Journal of Advancing Research, Innovation, and Entrepreneurship for your work.

Authors Guidelines on the Use of AI

The International Journal of Advancing Research, Innovation, and Entrepreneurship (IJARIE) recognizes the transformative potential of Artificial Intelligence (AI) in research and publication. These guidelines aim to provide authors with clear instructions on the responsible and ethical use of AI tools and technologies in their submissions.

Scope of AI Use

AI can be utilized in various stages of the research and publication process, including but not limited to:

- Data collection and analysis
- Manuscript preparation and editing
- Literature review and plagiarism checking
- Enhancing the clarity and quality of figures and tables

Ethical Considerations

Authors must ensure that the use of AI adheres to the highest ethical standards. Specifically:

- **Transparency**: Clearly disclose the use of AI tools in the methodology section of the manuscript.
- **Accountability**: Authors remain fully responsible for the content of their manuscripts, regardless of AI assistance.
- **Integrity**: Ensure AI tools are used to enhance the quality and rigor of research without compromising ethical standards.

Plagiarism and Originality

AI tools must not be used to generate text that mimics or paraphrases existing literature without proper citation. Authors should:

- Use plagiarism detection tools to ensure originality
- Attribute all sources accurately and transparently

Data Privacy and Security

When using AI tools that handle data, authors must:

- Ensure compliance with data protection regulations (e.g., GDPR)
- Safeguard the confidentiality and privacy of any personal data used

Examples of Acceptable AI Use

- **Data Analysis**: Using AI algorithms to analyze large datasets, provided the methods and interpretations are thoroughly vetted by the authors.
- **Language Editing**: Utilizing AI-based grammar and style checkers to improve the readability of the manuscript, with final edits made by the authors.
- **Reference Management**: Employing AI tools to organize and format citations and references accurately.

Prohibited Uses of AI

- Generating content that constitutes scientific fraud or misrepresentation
- Using AI to fabricate data or results
- Plagiarizing or improperly paraphrasing existing work

Acknowledgment of AI Contributions

In the acknowledgments section, authors should:

- Mention any AI tools that significantly contributed to the research and manuscript preparation

Compliance and Verification

IJARIE reserves the right to:

- Request additional information about the use of AI tools
- Verify compliance with these guidelines during the review process

For any questions or further clarifications, authors may contact the editorial board of IJARIE.
